

Next Trainers workshop is RCA with Joe Cohen

Bring along cases to discuss regarding ST3 trainees (keep it all anonymised!)

1. What has worked well for your ST3 in achieving a good RCA outcome?
2. What are your thoughts about the RCA? Are they representative of life into CCT?
3. What resources should we give to our Trainees, and at what stage of training?

Let's discuss the cases and learn together!
Looking forward to meeting you all!
