

Next Trainers workshop is TID (trainee in difficulty and communication skills) with Dr. Anwar Ali Khan.

Can the GP Trainer's prepare one TID case each outlining:

1. Brief outlook on the case?
2. What were the difficulties encountered?
3. What support/advice was provided and what was missing?
4. Any specific questions to the Trainers group?

Send these to daniashoeb@nhs.net at least one week before the talk! The talk will be based on the cases sent. Keep it all anonymised!

Looking forward to meeting you all
